8 GCSEs at A* - B grade (including Maths, English Language & Literature)

SKILLS

Language Experience Java, JavaScript, C, Python, HTML, CSS

Spoken Languages English, Urdu, Punjabi, Hindi

Technical Skills Proficiency in Adobe Suite, MS Office

PROJECTS

RMI Auction System Built a program that emulated an auction system using Java and Java RMI. This included a client and a server, implemented auction logic and access control via cryptographic authentication.

Dungeon Crawler Built a platform-level based game in Java and JSFML with fellow students. This assignment was awarded a 100% mark for the university module it was designed for. I was given the responsibility of designing and programming the many graphical interfaces and elements the game required, expanding my skills in this area extensively. This project also aided my understanding of working on a programming project within a team environment.

Chatty Built a concise, well-functioning client and server sided chatroom in Python. Worked on as a personal project that strengthened my understanding of networking and sockets in Python.

EXPERIENCE

Customer Assistant — **Tesco PLC, Chelmsford**

Aug 2017 - Jan 2018

Tesco PLC

Chelmsford, Essex

- Working in a team with my fellow colleagues to ensure that everyone was working on a specific task, communicating with each other to make this possible.
- Interacting with customers to ensure their shopping experience is as best as it can be.
- Restocking the shelves, ensuring that everything is up to date and fully stocked.

EXTRA-CURRICULAR ACTIVITIES

- Actively involved in graphic design. Currently running a design workshop on an online forum that allows users to request graphical work which I design to their requirements. This includes website designs and company logos.
- In my spare time I take part in the amateur eSports gaming scene. I have competed at many different levels of eSports, including winning tournaments with prize pools. This experience has helped me incredibly in building personal confidence, understand the pressures and difficulties of working within a team, and strengthening my position as a leader within a team.
